

Metal Hose

- MC87119** **Specification Reference: Meets or exceeds the requirements of AS1424 Class S (Hose Assemblies).**
- Temperature Range:** For continuous operation in pneumatic systems up to 850 degrees F with short duration excursion to 1200 degrees F.
- Reinforcement:** Corrosion resistant stainless steel braid
- Inner Tube:** Corrosion resistant stainless steel convoluted annular inner tube
- Application:** High temperature aircraft bleed air, anti-icing, fuel, oil, drain, and oxygen systems
- Sizes Available:** 1/4 inch nominal I.D. through 3/4 inch nominal I.D.
